Policy on Know Your Customer Guidelines and Anti-Money Laundering Measures

Version : 8.0
Owned By : Head – Operations
Approved By : Board of Directors
Effective From : May 18, 2021

1. Introduction

Reserve Bank of India (“**RBI**”) and National Housing Board (“**NHB**”) have, from time to time, issued the guidelines on Know Your Customer (“**KYC**”) and Anti Money Laundering (“**AML**”) Measures for the regulated entities including the housing finance companies for setting the standards for prevention of money laundering activities and corporate practices while dealing with their Customers from time to time.

Capital India Home Loans Limited (“**Company**”) has adopted a robust policy framework on KYC and AML measures in line with the guidelines prescribed by RBI and/or NHB (“**Policy**”). The Company shall adopt all the best practices prescribed by RBI and/or NHB from time to time and shall make appropriate modifications to the Policy, if necessary, to conform to the standards so prescribed. The contents of the Policy shall always be read in conjunction with the changes / modifications which shall be advised by RBI and/or NHB from time to time.

2. Objective:

The objective of the Policy is to prevent the Company from being used, intentionally or unintentionally, by criminal elements for money laundering activities or terrorist financing activities. KYC procedures shall also enable the Company to know and understand its Customers (*defined hereinafter*) and its financial dealings in better way which in turn will help the Company to manage its risks prudently.

3. Applicability:

This Policy shall prevail over anything else contained in any other document, process, circular and / or instruction that has been issued by the Company in this regard and shall be applicable to all verticals and products of the Company, whether existing or rolled out in future.

5. Key elements of the Policy:

This Policy includes 4 (Four) key elements, details of which are given below:

- Customer Acceptance Policy ("**CAP**")
- Risk Management
- Customer Identification Procedures ("**CIP**")
- Monitoring of Transactions.

5.1 Customer Acceptance Policy ("**CAP**):

- (i) CAP lays down the criteria for acceptance of the Customers. The guidelines in respect of the Customer relationship in the Company broadly includes the following:
 - a) No account shall be opened in anonymous or fictitious / benami name(s).

- b) No account shall be opened where the Company is unable to apply appropriate CDD measures, either due to non-cooperation of the Customer or non-reliability of the documents/information furnished by the Customer.
 - c) No Transaction or account-based relationship shall be undertaken without following the CDD procedure.
 - d) The mandatory information which is required to be obtained from the Customers for KYC purpose while opening an account and during the Periodic Update, shall be specified.
 - e) Any optional / additional information if required from the Customers after the account is opened, shall be obtained with the explicit consent of the Customers.
 - f) CDD Procedure shall be followed for all the joint account holders, while opening a joint account.
 - g) In case of an existing KYC compliant Customer, there shall be no need for a fresh CDD exercise.
 - h) Circumstances in which, a Customer is permitted to act on behalf of another person/entity, shall be clearly spelt out.
 - i) Suitable system shall be put in place to ensure that the identity of the Customer does not match with any person or entity, whose name appears in the sanctions lists circulated by RBI / NHB from time to time.
 - j) Where Permanent Account Number (PAN) is obtained, the same shall be verified from the verification facility of the issuing authority.
 - k) A Unique Customer Identification Code shall be allotted while entering into new relationships with individual Customers as also the existing Customers.
- (ii) The Company shall ensure that the adoption of CAP and its implementation shall not result in denial of services of the Company to general public, especially to those, who are financially or socially disadvantaged.

5.2 Risk Management:

- (i) The Company shall put in place an effective KYC program by establishing appropriate procedures and ensuring their effective implementation, which shall cover proper management oversight, systems and controls, segregation of duties, training and other related matters. The Company shall allocate the responsibility for ensuring that the policies and procedures of the Companies are implemented effectively.
- (ii) The Risk categorization shall be undertaken based on parameters such as Customer's identity, social financial status, nature of business activity, and information about the Customer's business / occupation and their location etc.
- (iii) The Customers shall be categorized based on perceived risk broadly into three categories – Category A, Category B & Category C, in terms of **Annexure I** herein. **Category A** comprises high risk Customers, **Category B** comprises medium risk Customers while **Category C** Customers comprises low risk Customers. None of the Customers will be exempted from Company's KYC procedure, irrespective of the status and relationship with Company, its directors and / or its promoters.
- (iv) The Recommendations made by the Financial Action Task Force (FATF) on AML standards and on Combating Financing of Terrorism (CFT) standards shall also be used in risk assessment.

5.3 Customer Identification Procedures ("CIP"):

- (i) Customer Identification is the process of identifying the Customer and verifying their identity by using reliable, independent source documents, data or information. The Company shall obtain necessary information to verify the identity of each new Customer along with brief details of its promoters and management, wherever applicable, whether regular or occasional, and the purpose of the intended nature of business relationship.
- (ii) The Company shall undertake identification of Customers in the following cases:
 - a) Commencement of an account-based relationship with the Customer.
 - b) When there is a doubt about the authenticity or adequacy of the Customer Identification data.
 - c) Selling third party products as agents, selling their own products and any other product for more than rupees fifty thousand.
- (iii) For the purpose of verifying the identity of the Customers at the time of commencement of an account-based relationship, the Company may, in its sole discretion, rely on CDD done by a third party, subject to the following conditions:
 - a) Records or the information of the CDD carried out by the third party is obtained within 2 (Two) days from the third party or from the Central KYC Records Registry.
 - b) Adequate steps are taken by the Company to satisfy themselves that copies of identification data and other relevant documentation relating to the CDD requirements shall be made available from the third party upon request without delay.
 - c) The third party is regulated, supervised or monitored for, and has measures in place for, compliance with CDD and record-keeping requirements in line with the requirements and obligations under the Prevention of Money-Laundering Act.
 - d) The third party shall not be based in a country or jurisdiction assessed as high risk.
 - e) The ultimate responsibility for CDD, including done by a third party and undertaking enhanced due diligence measures, as applicable, shall rest with the Company.
- (iv) The Company may, alternatively, undertake Video based Customer Identification Process (V-CIP), as specified under **Annexure IV**.

5.4 Monitoring of Transactions:

Monitoring of Transactions is an essential element of effective implementation of the Policy, which shall be conducted taking into consideration the risk profile and risk sensitivity of the Customers. The Company shall make an endeavor to understand the normal and reasonable activity of the Customer so that Transactions which fall outside the regular/pattern of activity can be identified. Special attention shall be paid to all complex, unusually large Transactions and all unusual patterns, which have no apparent economic or visible lawful purpose.

(i) Maintenance of records of Transaction:

A Company shall maintain the records of Transactions (nature and value), entered into between the Company and the Customer, and records of the identity and address of the Customer, in such form and for such period as specified under the PML Rules and the guidelines issued by RBI / NHB.

A Company shall maintain all necessary information in respect of Transactions prescribed under Rule 3 of the PML Rules, so as to permit reconstruction of individual Transaction, including the following:

- a) the nature of the Transactions;
- b) the amount of the Transaction and the currency in which it was denominated;
- c) the date on which the Transaction was conducted; and
- d) the parties to the Transaction.

The Company shall take appropriate steps to evolve a system for proper maintenance and preservation of information in a manner (in hard and soft copies) so that the information can be retrieved easily and quickly whenever required or requested by the competent authorities.

(ii) **Furnishing of information to the Director, Financial Intelligence Unit – India (FIU-IND):**

The Company shall, inter-alia, without any delay, furnish to the Director FIU-IND, within such time and in such form, the information in respect of Transactions as referred under sub-rule (1) of rule 3 of the PML Rules and a copy of such information shall be retained by the Principal Officer for the purposes of official record.

The Company shall not put any restriction on operations on the accounts where a Suspicious Transaction Report has been filed. The Company shall keep the fact of furnishing of Suspicious Transaction Report strictly confidential and shall ensure that there is no tipping off to the Customer at any level.

The Company may put in use a robust software, throwing alerts when the Transactions are inconsistent with risk categorization and updated profile of the Customers, as a part of effective identification and reporting of Suspicious Transactions.

(iii) **Reporting requirement under Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standards (CRS)**

The Company shall adhere to the provisions of income tax rules, FATCA and CRS, as applicable and shall take all appropriate steps for complying with the reporting requirements.

The Company shall also adhere to United Nations Security Council Resolutions (UNSCRs) circulated by the RBI, (as applicable) in respect of any other jurisdictions / entities from time to time.

(iv) **Requirements / obligations under International Agreements / Communications from International Agencies**

The Company shall ensure that in terms of Section 51A of the Unlawful Activities (Prevention) (UAPA) Act, 1967 and amendments thereto, the Company do not have any account in the name of individuals/entities appearing in the lists of individuals and entities, suspected of having terrorist links, which are approved by and periodically circulated by the United Nations Security Council (UNSC).

Details of accounts resembling any of the individuals/entities in the lists shall be reported to FIU-IND, Ministry of Home Affairs and/or RBI / NHB, as may be required under the applicable laws.

The Company shall strictly follow the procedure laid down in the UAPA order dated February 2, 2021, as may be amended from time to time and shall ensure meticulous compliance with such order issued by the government.

6. Money Laundering and Terrorist Financing Risk Assessment:

The Company shall carry out 'Money Laundering (ML) and Terrorist Financing (TF) Risk Assessment' as per the procedures and controls specified in the **Annexure VI**.

7. Customer Due Diligence (CDD) Procedure:

7.1. Procedure for obtaining identification and CDD Measures:

The Company shall undertake CDD the procedures and measures described in **Annexure II** hereto in relation to the Customers.

7.2. On-going Due Diligence:

Ongoing monitoring is an essential element of effective KYC procedures. The Company can effectively control and reduce their risk by understanding the normal and reasonable activities of the Customer.

The Company shall pay special attention to all complex, unusually large Transactions and all unusual patterns which have no apparent economic or visible lawful purpose. The extent of monitoring shall be aligned with the risk category of the Customer.

The Company shall apply enhanced due diligence measures based on the risk assessment, thereby requiring intensive 'due diligence' for higher risk Customers, especially those for whom the sources of funds are not clear. Periodic review based risk categorization of accounts will be carried out at least once in 6 (Six) months and would be based on exceptional reporting like google alerts and other market information. In case, no such information is received, existing classification of the Customers shall continue.

7.3. Periodic Updation:

A Company shall carry out Periodic Updation at least once in every 2 (Two) years for high risk Customers, once in every 8 (Eight) years for medium risk Customers and once in every 10 (Ten) years for low risk Customers. The timelines prescribed herein shall apply from the date of opening of the account / last verification of KYC.

The following procedure shall be carried out for Periodic Updation;

- i) PAN verification from the verification facility available with the issuing authority;
- ii) Certified Copy of OVD containing identity and address shall be obtained at the time of Periodic Updation from individuals except those who are categorized as 'low risk'. In case of low risk Customers when there is no change in status with respect to their identities and addresses, a self-certification to that effect shall be obtained; and
- iii) In case of legal entities, a fresh Certified Copy of documents which were submitted at the time of opening account shall be obtained.

The Company may not insist on the physical presence of the Customer for the purpose of furnishing OVD unless there are sufficient reasons that physical presence of the account holder/holders is required to establish their bona-fides. OVD / consent forwarded by the Customer through mail/ post, etc., may be accepted at the sole discretion on the Company.

The Company shall provide acknowledgment with date of having performed the updation.

8. Appointment of Designated Director and Principal Officer:

Designated Director:

The Board has nominated Mr. Vineet Kumar Saxena, being Whole-time Director and Chief Executive Officer of the Company, as a 'Designated Director', who shall ensure overall compliance with the obligations imposed under Chapter IV of the PMLA and PML Rules. The name, designation and address of the Designated Director, including changes from time to time, shall be communicated to the Director, Financial Intelligence Unit India (FIU-IND) and also to RBI and/or NHB, as may be required.

Principal Officer

The Board has nominated Mr. Rachit Malhotra, being Company Secretary of the Company, as a 'Principal Officer' who shall be responsible for ensuring compliance, monitoring Transactions, and sharing and reporting information as required under the PMLA and PML Rules. The name, designation and address of the Principal Officer, including changes from time to time, shall be communicated to the Director, FIU-IND and also to RBI and/or NHB, as may be required.

9. Other Measures:

9.1. Secrecy Obligations and Sharing of Information:

The Company shall maintain secrecy regarding the Customer information which arises out of the contractual relationship between the Company and the Customer. While considering the requests for data/information from Government and other agencies, the Company shall satisfy themselves that the information being sought is not of such a nature as will violate the provisions of the laws relating to secrecy in Transactions.

An illustrative (but not exhaustive) list of Suspicious Transactions financial services (including housing / builder / project loans) is furnished under **Annexure III**.

9.2. Sharing KYC information with Central KYC Records Registry (CKYCR):

The Company shall capture the KYC information for sharing with the CKYCR in the manner mentioned in the PML Rules, as required by the revised KYC Templates prepared for Individuals and Legal Entities ("LE") as the case may be. The Company shall upload the KYC data with CERSAI in respect of all accounts, as required under the provisions of the PML Rules, from time to time.

The Company shall upload KYC records pertaining to accounts of LEs opened on or after April 1, 2021, with CKYCR in terms of the provisions of the PML Rules.

The Company shall capture Customer's KYC records and upload onto CKYCR within such period as may be specified under PML Rules and / or guidelines / circulars issued by RBI or NHB, as applicable. Once KYC Identifier is generated by CKYCR, the Company shall ensure that the same is communicated to the Customer.

Where a Customer, for the purposes of establishing an account based relationship, submits a KYC Identifier to the Company, with an explicit consent to download records from CKYCR, then the Company shall retrieve the KYC records online from the CKYCR using the KYC Identifier and the Customer shall not be required to submit the same KYC records or information or any other additional identification documents or details, unless –

- i) there is a change in the information of the Customer as existing in the records of CKYCR;
- ii) the current address of the Customer is required to be verified;
- iii) the Company considers it necessary in order to verify the identity or address of the Customer, or to perform enhanced due diligence or to build an appropriate risk profile of the Customer.

In order to ensure that all KYC records are incrementally uploaded on to CKYCR, the Company shall upload/update the KYC data pertaining to accounts of individual customers and LEs (opened prior to April 1, 2021) at the time of Periodic Updation or earlier, when the updated KYC information is obtained/received from the Customer. The Company shall ensure that during Periodic Updation, the Customers are migrated to the current CDD standard.

9.3. Hiring of Employees and Employee training:

The Company shall put in place an adequate screening mechanism as an integral part of the personnel recruitment/hiring process. The Company shall also put in place an on-going employee training programme so that the members of staff are adequately trained in KYC/AML Measures policy. The focus of the training shall be different for frontline staff, compliance staff and staff dealing with new Customers. The front desk staff shall be specially trained to handle issues arising from lack of Customer education.

9.4. Selling Third party products:

The Company, while acting as agents to sell third party products, shall comply with the applicable laws/regulations, including system capabilities for capturing, generating and analyzing alerts for the purpose of filing cash transaction report / suspicious transaction report in respect of Transactions relating to third party products with Customers.

9.5. Adherence to KYC guidelines by the Company and persons authorized by the Company including brokers/agents etc.

All persons authorized by the Company for selling loan related products, their brokers/ agents or the like, shall be fully compliant with the KYC guidelines applicable to the Company.

All information may be made available to RBI / NHB to verify the compliance with the KYC guidelines and accept full consequences of any violation by the persons authorized by the Company including brokers/ agents etc. who are operating on their behalf.

9.6. Closure of Accounts/Termination of Financing/Business Relationship:

In case the Company is unable to apply appropriate CDD procedures or measures due to non-furnishing of information and/or non-cooperation by the Customer, the Company shall consider closing the account or terminate business relationship after issuing due notice to the Customer explaining the reasons for taking such a decision. Such action shall be taken with the approval of Chief Executive Officer of the Company or Head – Risk of the Company or any other Key Managerial Personnel of the Company duly authorized for this purpose.

9.7. Internal Control System and compliance with the Policy:

The Company shall ensure compliance with the Policy through:

- (i) concurrent/ internal audit system to verify the compliance with KYC/Anti-Money Laundering (AML) policies and procedures;
- (ii) submission of quarterly audit notes and compliance to the Audit Committee.

The Internal Auditors of the Company shall check and evaluate the adherence and compliance of the Policy. A compliance report of the Internal Auditors shall be submitted to the Committee on quarterly basis.

10. Review of the Policy:

This Policy is subject to review by the Board, as and when deemed necessary. The Board may amend or revise this Policy from time to time, as required under the guidelines issued by RBI and/or NHB and other applicable laws.

Notwithstanding anything contained in this Policy, the Company shall ensure compliance with any additional requirements as may be prescribed under the provisions of PMLA, PML Rules, Foreign Contribution and Regulation Act, 1976, and other applicable laws / regulations, either existing or arising out of any amendment to such laws / regulations or otherwise and applicable to the Company from time to time. Any change/amendment in PMLA, PML Rules, Foreign Contribution and Regulation Act, 1976 and other applicable laws shall be deemed to be incorporated in this Policy by reference and this Policy shall be deemed to have been amended and revised accordingly.

CDD Measures for Identification of Beneficial Owner

For opening an account of a legal person who is not a natural person (individual), the Beneficial Owner(s) shall be identified and all reasonable steps in terms of Rule 9(3) of the PML Rules to verify his/her/its identity shall be undertaken keeping in view the following:

(a) Where the Customer or the owner of the controlling interest is a company listed on a stock exchange, or is a subsidiary of such a company, it is not necessary to identify and verify the identity of any shareholder or Beneficial Owner of such companies.

(b) In cases of trust/nominee or fiduciary accounts whether the Customer is acting on behalf of another person as trustee/nominee or any other intermediary is determined. In such cases, satisfactory evidence of the identity of the intermediaries and of the persons on whose behalf they are acting, as also details of the nature of the trust or other arrangements in place shall be obtained.

Part II: Enhanced Due Diligence Measures

Accounts of Non-Face-To-Face Customers:

In the case of Non-Face-To-Face Customers of the Company, apart from applying the usual Customer Identification Procedures, there must be specific and adequate procedures to mitigate the higher risk involved. Certification of all the documents presented may be insisted upon and, if necessary, additional documents may be called for. In the case of cross-border Customers, there is the additional difficulty of matching the Customer with the documentation and the Company may have to rely on third party certification/introduction. In such cases, it must be ensured that the third party is a regulated and supervised entity and has adequate KYC systems in place. The Company shall ensure that the first payment is to be effected through the Customer's KYC-complied account, for enhanced due diligence of Non-Face To Face Customers

Accounts of Politically Exposed Persons (PEPs):

The Company shall gather sufficient information pertaining to PEPs and check all the information available on the Person in the public domain. The Company shall verify the identity of the Person and seek information about the sources of funds before accepting the PEP as a Customer. The decision to provide financial services to an account for PEP shall be taken at a senior level and such accounts shall be subjected to enhanced monitoring on an ongoing basis. The above norms may also be applied to the accounts of the family members or close relatives of PEPs. In the event of an existing Customer or the Beneficial Owner of an existing account subsequently becoming a PEP, senior management's approval is obtained to continue the business relationship. These instructions shall also be applicable to accounts where a PEP is the Beneficial Owner.

Customer's accounts opened by Professional Intermediaries:

The Company shall, while opening Customer's accounts through professional intermediaries, ensure that:

- a) The Customer shall be identified when client account is opened by a professional intermediary on behalf of a single client.
- b) The Company shall have option to hold 'pooled' accounts managed by professional intermediaries on behalf of entities like mutual funds, pension funds or other types of funds.
- c) The Company shall not open accounts of such professional intermediaries who are bound by any client confidentiality that prohibits disclosure of the client details to the Company.
- d) All the Beneficial Owners shall be identified where funds held by the intermediaries are not co-mingled at the level of the Company, and there are 'subaccounts', each of them attributable to a Beneficial Owner, or where such funds are co-mingled at the level of the Company, the Company shall look for the Beneficial Owners.
- e) The Company shall, in its sole discretion, rely on the CDD done by an intermediary, provided that the intermediary is a regulated and supervised entity and has adequate systems in place to comply with the KYC requirements of the Customers.
- f) The Company shall hold the ultimate responsibility for knowing the Customer.

ANNEXURE IV

Video based Customer Identification Process (V-CIP)

The Company may undertake live V-CIP, to be carried out by an official of the Company, for establishment of an account-based relationship with an individual Customer, after obtaining his informed consent and shall adhere to the following stipulations:

- i) The official of the Company performing the V-CIP shall record video as well as capture photograph of the Customer present for identification and shall only carry out Offline Verification of Aadhaar for identification.
- ii) The Company shall capture a clear image of PAN card to be displayed by the Customer during the process, except in cases where e-PAN is provided by the Customer. The PAN details shall be verified from the database of the issuing authority.
- iii) Live location of the Customer (Geotagging) shall be captured to ensure that Customer is physically present in India.
- iv) The official of the Company shall ensure that;
 - a) photograph of the Customer in the Aadhaar/PAN details matches with the Customer undertaking the V-CIP,
 - b) the identification details in Aadhaar/PAN shall match with the details provided by the Customer,
 - c) the sequence and/or type of questions during video interactions are varied in order to establish that the interactions are real-time and not pre-recorded.
 - d) In case of Offline Verification of Aadhaar using XML file or Aadhaar Secure QR Code, the XML file or QR code generation date is not older than 3 days from the date of carrying out V-CIP.
- v) All accounts opened through V-CIP shall be made operational only after being subject to concurrent audit, to ensure the integrity of process.
- vi) The Company shall ensure that the process is a seamless, real-time, secured, end-to-end encrypted audiovisual interaction with the Customer and the quality of the communication is adequate to allow identification of the Customer beyond doubt. The Company shall carry out the liveness check in order to guard against spoofing and such other fraudulent manipulations.
- vii) To ensure security, robustness and end to end encryption, The Company shall carry out software and security audit and validation of the V-CIP application before rolling it out.
- viii) The audiovisual interaction shall be triggered from the domain of the Company itself, and not from third party service provider, if any. The V-CIP process shall be operated by officials specifically trained for this purpose. The activity log along with the credentials of the official performing the V-CIP shall be preserved.
- ix) The Company shall ensure that the video recording is stored in a safe and secure manner and bears the date and time stamp.
- x) The Company shall, as applicable, take assistance of the latest available technology, including Artificial Intelligence (AI) and face matching technologies, to ensure the integrity of the process as well as the information furnished by the Customer. However, the responsibility of Customer identification shall rest with the Company.
- xi) The Company shall ensure to redact or blackout the Aadhaar number, as provided under this Policy.

ANNEXURE V

Digital KYC Process

- a) The Company may develop an application for digital KYC process ("Application") which shall be made available at Customer touch points for undertaking KYC of the Customers and the KYC process shall be undertaken only through such authenticated application of the Company.
- b) The access of the Application shall be controlled by the Company and it should be ensured that the same is not used by unauthorized persons. The Application shall be accessed only through login-id and password or Live OTP or Time OTP controlled mechanism given by the Company to its authorized officials.
- c) The Customer, for the purpose of KYC, shall visit the location of the authorized official of the Company or vice-versa. The original OVD shall be in possession of the Customer.
- d) The live photograph of the Customer shall be taken by the authorized officer of the Company and the same photograph shall be embedded in the Customer Application Form (CAF). Further, the system Application of the Company shall put a watermark in readable form having CAF number, GPS coordinates, authorized official's name, unique employee Code (assigned by the Company) and Date (DD:MM:YYYY) and time stamp (HH:MM:SS) on the captured live photograph of the Customer.
- e) The Application of the Company shall have the feature that only live photograph of the Customer is captured and no printed or video-graphed photograph of the Customer is captured. The background behind the Customer while capturing live photograph should be of white colour and no other person shall come into the frame while capturing the live photograph of the Customer.
- f) Similarly, the live photograph of the original OVD or proof of possession of Aadhaar where Offline Verification cannot be carried out (placed horizontally), shall be captured vertically from above and watermarking in readable form as mentioned above shall be done. No skew or tilt in the mobile device shall be there while capturing the live photograph of the original documents.
- g) The live photograph of the Customer and his original documents shall be captured in proper light so that they are clearly readable and identifiable.
- h) Thereafter, all the entries in the CAF shall be filled as per the documents and information furnished by the Customer. In those documents where Quick Response (QR) code is available, such details can be auto-populated by scanning the QR code instead of manual filing the details. For example, in case of physical Aadhaar/e-Aadhaar downloaded from UIDAI where QR code is available, the details like name, gender, date of birth and address can be auto-populated by scanning the QR available on Aadhaar/e-Aadhaar.
- i) Once the above mentioned process is completed, a One Time Password (OTP) message containing the text that 'Please verify the details filled in form before sharing OTP' shall be sent to Customer's own mobile number. Upon successful validation of the OTP, it will be treated as Customer signature on CAF. However, if the Customer does not have his/her own mobile number, then mobile number of his/her family/relatives/known persons may be used for this purpose and be clearly mentioned in CAF. In any case, the mobile number of authorized officer registered with the Company shall not be used for Customer signature. The Company must check that the mobile number used in customer signature shall not be the mobile number of the authorized officer.
- j) The authorized officer shall provide a declaration about the capturing of the live photograph of Customer and the original document. For this purpose, the authorized official shall be verified with One Time Password (OTP) which will be sent to his mobile number registered with the Company. Upon successful OTP validation, it shall be treated as authorized officer's signature on the declaration. The live photograph of the authorized official shall also be captured in this authorized officer's declaration.
- k) Subsequent to all these activities, the Application shall give information about the completion of the process and submission of activation request to activation officer of the Company, and also generate the transaction-id/reference-id number of the process. The authorized officer shall intimate the details

regarding transaction-id/reference-id number to Customer for future reference.

- l) The authorized officer of the Company shall check and verify that:- (i) information available in the picture of document is matching with the information entered by authorized officer in CAF. (ii) live photograph of the Customer matches with the photo available in the document.; and (iii) all of the necessary details in CAF including mandatory field are filled properly.
- m) On Successful verification, the CAF shall be digitally signed by authorized officer of the Company who will take a print of CAF, get signatures/thumb-impression of Customer at appropriate place, then scan and upload the same in system. Original hard copy may be returned to the Customer.

ANNEXURE VI

Money Laundering and Terrorist Financing Risk Assessment

Background:

The Reserve Bank of India (RBI) introduced an amendment to Master Direction – Know Your Customer (KYC) Direction, 2016 requiring regulated entities to carry out money laundering (ML) and terrorist financing (TF) risk assessment exercises periodically. This requirement shall be applicable with immediate effect and the first assessment shall be carried out by June 30, 2020.

Undertaking ML and TF risk assessment is a very subjective matter with no standard process to be followed for the same. There is no uniformity on procedures of risk assessment, however, the Company has considered guidance principles enumerated by international bodies for carrying out risk assessment exercise.

Global practices for ML/TF risk assessment:

The concept of ML and TF risk assessment arises from the recommendations of Financial Action Task Force (FATF). Based on FATF recommendations, many jurisdictions have prepared and published risk assessment procedures. India is yet to come up with the same. For example, the national risk assessment of money laundering and terrorist financing is the guidance published by the UK government which provides for sector specific guidance for risk assessment. The sector specific guidance is further granulated keeping in view the specific threats to certain parts of the sector.

Risk assessment process:

The Company has domestic operations and its Customers fall into similar categories and/or where the range of products and services are homogenous and hence a simple risk assessment suffices. The Company is primarily into affordable housing finance and non – home loans are also done with an intent of meeting individual consumption or business capital needs. Thus, the Company track the main purpose and end use of funds for the facility through monitoring of various parameters such as direct payment to seller / vendor for which loan is given, disbursement in verified business account, verification with financial statements, certificate from chartered account among others. In addition to the customer identification procedures as per the Policy approved by the Board, the process of ML / TF risk assessment may be divided into following steps:

Step 1: Collection of information:

- The risk assessment shall begin with collecting of information on a wide range of variables including information on the general criminal environment, TF and terrorism threats, TF vulnerabilities of specific sectors and products, and the general anti-money laundering (AML) measures in place.
- The information may be collected externally or internally. It can be fetched through the FI being carried out for the borrower through external empaneled agency. They have repository of records and dedup on same along with google database gives a desired outcome. Any negative remark in this report shall be taken into account by credit team while underwriting the loan proposal.

Step 2: Threat identification

- Based on the information collected, jurisdiction and sector specific threats would be identified based on the risks identified on the national level; however, it shall not be limited to the same and shall be commensurate to the size and nature of business.

- Factors to be considered include the level of inherent risk including the nature and complexity of the Company's loan products and services, size, business model, corporate governance arrangements, delivery channels among others. Focus would also be given to the internal controls in place and the functioning of the internal oversight functions.

Step 3: Assessment of ML/TF vulnerabilities:

- This step involves determination of the how the identified threats will impact the entity / borrower with the probability of risks occurring. Based on the assessment, ML/TF risks should be classified as low, medium and high impact risks.
- While assessing the risks, following indicative factors should be considered:
 - ≥ The nature, scale, diversity and complexity of business and target markets;
 - ≥ The number of Customers already identified as high risk;
 - ≥ The jurisdictions the Company is exposed to, either through its own activities or the activities of Customers, especially jurisdictions with relatively higher levels of corruption or organised crime, and/or deficient AML/CFT controls and listed by RBI or FATF;
 - ≥ The distribution channels, including the extent to which the Company relies on third parties / business associates to conduct Customer Due Diligence (CDD);
 - ≥ The internal audit and regulatory findings
- This information should be supplemented with information obtained from relevant internal and external sources, such as operational/business heads and lists issued by inter-governmental international organisations, national governments and regulators.

Step 4: Analysis of ML/TF threats and vulnerabilities:

Once potential TF threats and vulnerabilities are identified, the next step is to consider how these interact to form risks including assessment of likely consequences.

Step 5: Risk Mitigation:

Post the analysis of threats and vulnerabilities, appropriate mitigant for the ML/TF risks identified shall be put in place. The initial stages of the CDD process helps to assess the ML/TF risk associated with a proposed business relationship, determine the level of CDD to be applied and deter persons from establishing a business relationship to conduct illicit activity.

Risk identification and its mitigation can be broadly classified based on the following:

- **Business-based risk assessment:** Company's products, services and delivery channels, the geographical location in which the Company operates along with other relevant factors, if any.

- **Products, Services and Delivery Channels**

Examples	Mitigant / Steps to consider
High-risk products and services, such as: <ul style="list-style-type: none"> • electronic funds transfers,./ 	<ul style="list-style-type: none"> • Legitimate products and processes can be used to mask illegal origins of funds, to move funds to finance terrorist acts or to hide the true identity of the actual owner or beneficiary of the product or service. Steps to mitigate may involve assessment of the products and services by the type of market

<ul style="list-style-type: none"> products offered through the use of intermediaries or agents 	<p>that they are directed to or nature of product (e.g. individuals, or corporate, personal loan etc.) as this may have an impact on the risk.</p> <ul style="list-style-type: none"> Additionally, it may be checked whether the products or services allow Customers to conduct business or transactions with higher-risk business segments, or could they be used by Customers on behalf of third parties.
<p>Delivery channels, such as:</p> <ul style="list-style-type: none"> Non face-to-face transactions Business Associate / Agent network 	<p>There may be a higher inherent risk with regards to delivery channels in non face-to-face transactions, use agents or if Customers can apply for products online. Adherence to strict AML norms and tracking end usage of funds till the desired party for which loan is meant helps mitigate the risk.</p> <p>Also additional comforting factor could be retail nature of product offering which to an extent mitigates possibility of ML / TF.</p>
New Technologies	<ul style="list-style-type: none"> Products/services that are based on new technologies may have an impact on overall inherent risks. E.g.: new payment methods can be used to transmit funds more quickly or anonymously, such as electronic wallets, pre-paid cards, internet payment services, digital currency or mobile payments.

- **Geography**

Examples	Mitigant / Steps to consider
<p>Border-crossings:</p> <ul style="list-style-type: none"> Air (i.e. airports) Water (i.e. ports, marinas) Land Rail 	<p>If business is situated near a border-crossing, there may be a higher inherent risk due to the fact that it may be the first point of entry into the financial system. The Company does not have any such operational presence.</p>
<p>Geographical location and demographics:</p> <ul style="list-style-type: none"> Large city Rural area 	<ul style="list-style-type: none"> Depending on situation, a rural area where Customers are known to the Company could present a lesser risk compared to a large city where new clients and anonymity are more likely. However, the known presence of organized crime would obviously have the reverse effect. Governments database details of crime by regions may benefit the assessment. The Company has access to several database to verify and criminal proceedings or any other litigation pertaining to the borrower / individuals.
<p>Connection to high-risk countries:</p> <ul style="list-style-type: none"> UN Security Council Resolutions FATF list of High-Risk Countries and Non-Cooperative Jurisdictions 	<p>Certain countries should be identified as posing a high risk for ML/TF based on, among other things, their level of corruption, the prevalence of crime in their region, the weaknesses of their money laundering control regime, or being identified by competent authorities like the FATF or through their respective advisories.</p> <p>The Company business operations and nature of product offerings are not having presence outside India hence risk is mitigated.</p>

- **Other Relevant Factors (If applicable)**

Examples	Mitigant / Steps to consider
<ul style="list-style-type: none"> Ministerial Directives Regulators 	<p>Sanctions can impact business by:</p> <ul style="list-style-type: none"> prohibiting trade and other economic activity with a foreign market, restricting financial transactions such as foreign investments or acquisitions, or leading to the seizure of property situated in India. <p>These restrictions may apply to dealings with entire countries, non-state actors, such as terrorist organizations from a target country. Any ministerial directives must be taken into consideration and any additional measures to be followed as specified by regulator from time to time.</p>

Business model: <ul style="list-style-type: none"> Operational structure Third party and/or service providers 	<ul style="list-style-type: none"> Consideration of business model, the size of business, the number of branches and employees, is required to determine if risks exist in relation to this element. E.g.: <ul style="list-style-type: none"> A business with several branches and thousands of employees will present different risks than a business that has one location and 2 employees. A business with a high employee turnover. This highlights the fact that other compliance regime elements such as training are very much intertwined with risk-based approach exercise. Adequate training – mainly an On The Job training to underwriting team is effectively undertaken by the Company for awareness and better implementation of functional roles. Use of a third party or service provider can be a good business practice, but the business is ultimately responsible for the compliance regime, client identification, record keeping and reporting obligations. Full understanding of how third party/service provider is functioning is required.
---	---

- Relationship-based risk assessment:** products and services Customers utilize, the geographical locations in which asset is acquired or they do business as well as their activities, transaction patterns among others.
 - Products, Services and Delivery Channels:** The examples as elicited above applied, mutatis-mutandis, to Customers as well.
 - Geography**

Examples	Mitigant / Steps to consider
Customer's proximity to an office / branch	A Customer that conducts business or transactions away from its home office / branch without reasonable explanation should be noticed.
Customer is a non-resident	Identification of these Customers may prove more difficult since they may not be present in person and as such, should raise the inherent level of risk.
Customer acquiring asset under consideration away from business place / current residence	A Customer who is proposing to buy a house away from the regular business place or current residence without reasonable justification should be noticed.
Customer has offshore business activities or interests.	Is there a legitimate reason for this? Offshore activities may be used by a person to add a layer of complexity to transactions, thus raising the overall risk of ML/TF.

- **Pattern of activity**

Examples	Mitigant / Steps to consider
Customer is in possession/ control of / acquiring property that is owned/controlled by/on behalf of a terrorist/a terrorist group	This needs to be highlighted to the government authority.
Customer is a Politically Exposed Foreign Person (PEFP)	A PEFP is an individual who is or has been entrusted with a prominent function. Because of their position and the influence that they may hold, a PEFP is vulnerable to ML/TF or other offences such as corruption. As a business, a politically exposed foreign person is a high-risk Customer.
The account activity does not match the Customer profile	Account activity that doesn't match the Customer profile may indicate a higher risk of ML/TF.
Customer's business generates cash for transactions not normally cash intensive	The fact that there is no legitimate reason for the business to generate cash represents a higher risk of ML/TF.

- **Focus on CDD procedure:**

- During the CDD process that the identity of a Customer is verified and risk based assessment of the Customer is done. While assessing credit risks, ML/TF risks shall also be assessed.
- The risk classification of the Customer, as discussed above, should also be done based on the CDD carried out. The CDD procedure, apart from verifying the identity of the Customer, should also go a few steps further to understand the nature of business or activity of the Customer. Measures should be taken to prevent the misuse of legal persons for money laundering or terrorist financing including transaction due diligence to identify source and application of funds, beneficiary of the transaction, purpose etc.
- Records on transactions and information obtained through the CDD measures shall be maintained. The CDD information and the transaction records should be made available to competent authorities upon appropriate authority. Some examples of enhanced due diligence measures are as follows:
 - ≥ carrying out additional searches (e.g., verifiable adverse media searches)
 - ≥ commissioning an intelligence report on the Customer or beneficial owner to understand better the risk that the Customer or beneficial owner may be involved in criminal activity
 - ≥ verifying the source of funds or wealth involved in the business relationship to be satisfied that they do not constitute the proceeds from crime
 - ≥ seeking additional information from the Customer about the purpose and intended nature of the business relationship
 - ≥ seeking information about purpose of buying asset under consideration and its relevance in correlation with data provided in loan application form.
- **Other measures**
 - ≥ Tracking end usage of funds for which loan is intended to be used becomes the starting point of mitigating ML/TF
 - ≥ Monitoring through periodical Credit Risk Monitoring Framework (CRMF) exercises (on sample basis) also involves identifying changes to the usage of asset mortgaged, Customer profile (for example, their behavior, use of products and the amount of money involved), and keeping it up to date, which may require the application of new, or additional, CDD measures.
 - ≥ Funds / instances or transactions that are suspicious should be reported promptly to the FIU and in the manner specified by the authorities as per the KYC Policy as already approved.

Step 6: Review and update risk assessment:

Once assessed, the impact of the risk shall be recorded and measures to mitigate the same shall be documented. The information that forms basis of the risk assessment process should be timely updated and shall be put up to the risk management committee of the Company, annually, for its assessment / monitoring. The outcome of this exercise shall be made available to competent authorities and self-regulating bodies, as and when required by them. The entire risk assessment procedure should be carried out in case of major change in the information.
